		No		<u>One of the following:</u> <ul style="list-style-type: none"> <li>• Negative PCR test &lt;72h</li> <li>• Antigen test &lt;48h</li> <li>• A recovery certificate &lt;6 months</li> </ul>			Yes
All other countries not listed as green, for full list of countries, visit the official government's page.	Orange	Yes	No	No	No	No	Yes
		No	Yes	<u>One of the following:</u> <ul style="list-style-type: none"> <li>• Negative PCR test &lt;72h</li> <li>• Antigen test &lt;48h</li> </ul>	PCR/antigen test at random upon arrival		No except if working on a COVID-19 related experiment or unless you are already in France for one of the essential reasons required.

Vaccines accepted by France are those recognized by the European Medicines Agency (EMA): Pfizer, Moderna, AstraZeneca/Vaxzevria/Covishield and Johnson & Johnson. Proof of vaccination is only valid provided that it attests to complete vaccination: Two weeks after the second shot for two-shot vaccines (Pfizer, Moderna, AstraZeneca); Four weeks after the shot for one-shot vaccines (Johnson & Johnson); Two weeks after the shot for vaccines administered to people who have already had COVID-19 (only one dose is necessary).
