

X-RAY AND NEUTRON SCIENCE

INTERNATIONAL STUDENT
SUMMER PROGRAMME AT ESRF/ILL

JULY 6 – AUGUST 2, 2014 – GRENOBLE, FRANCE

SCOPE:

The **ESRF/ILL International Student Summer Programme on X-Ray and Neutron Science** is aimed at **undergraduate students**. It will consist in a **4-week experimental project** embedded in a research group of ESRF or ILL, together with a **series of introductory lectures** on the principles and applications of X-ray and neutron science (magnetism, materials science, soft matter, structural biology, imaging, etc.).

LOCATION:

The Summer Programme will take place at the **European Photon & Neutron Science Campus** (EPN), hosting the ESRF and ILL, located in Grenoble.

ELIGIBILITY:

Undergraduate students from a **Member Country (or Scientific Associate Country) of ESRF or ILL** are eligible to the Summer Programme (see detailed list on web site below). The number of participants is limited to about 20.

FINANCIAL SUPPORT:

All **selected participants** will receive a **financial support** covering their **travel and local expenses** in Grenoble.

DEADLINE FOR APPLICATIONS: MARCH 15, 2014
