

X-RAY AND NEUTRON SCIENCE

International Undergraduate Student Summer Programme
at the European Photon & Neutron Science Campus (EPN)

ESRF/ILL, Grenoble, France

3-29 September, 2023

Deadline for applications: 28 April

Information & applications:

<https://www.esrf.fr/summerschool2023>

Contact: summerschool-2023@esrf.fr

The ESRF/ILL International Undergraduate Summer Programme on X-Ray and Neutron Science consists of a 4-week experimental project embedded in a research group of ESRF and ILL, together with a series of introductory lectures on the principles and applications of X-ray and neutron science (magnetism, materials science, soft matter, biology, imaging, etc.)

Undergraduate students from a Member Country (or Scientific Associate Country) of ESRF or ILL are eligible to the Summer Programme. The number of participants is limited to 20.

All selected participants will receive financial support and free accommodation in Grenoble
